

No appeal was noted in the case and it is expected that this is the final chapter in a tragic homicide which deeply stirred the county.

AMONG THE CHURCHES

Special instruction for children Saturday afternoon at 4. Sunday, February 3, will be the regular monthly communion Sunday for the ladies and children.

WOMAN SO ILL COULD NOT WORK

Tell How Lydia E. Pinkham's Vegetable Compound Stopped Her Suffering and Restored Her Health

Monmouth, Illinois.—"I surely can recommend your medicine to other women who have female weakness, as it has helped me very much in every way possible. I was working in a dining room in town, and sometimes I could not do my work; had pains in the lower part of my body and had to stay in bed. One of my neighbors told me what good Lydia E. Pinkham's Vegetable Compound did for her, and it has surely done wonders for me. I hope all women who suffer will take my advice as the Vegetable Compound has done so much to bring back my vigor and strength."—Mrs. ALBERT E. DUNCAN, Monmouth, Illinois.

Over 121,000 women have so far replied to our question, "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?" 98 percent of these replies answer "Yes." That is 98 out of every 100 women who take this medicine for the ailments for which it is recommended are benefited by it. For sale by druggists everywhere.

Leo Street Baptist Church. Sunday school 9:30 a. m. J. H. Winkler, Supt. Preaching at 11 a. m. and 7:30 p. m. by Rev. C. T. Oley. Junior Intermediate and Senior B. Y. P. U. meet at 8:30 p. m. The public is cordially invited to attend each of these services.

Calvary Methodist. Joseph S. Greham, pastor. Sunday school 9:30 a. m. W. M. Martin, Supt. Bible class for men, taught by J. J. Filppen. Sermon and communion at 11 a. m. Preaching at 7:30 p. m. by Rev. M. T. Harlowe, of Chatham, Va. Epworth League services at 8:45 p. m. Miss Agnes Ragland, leader. Mid-week prayer services Wednesday at 8 p. m. Thursday afternoon tea at 3:30, at the home of Mrs. L. W. Purdum. Sermon by the pastor at 7:30 p. m. Entertaining by Mrs. O. G. Gentress and Mrs. L. C. Brockman.

Second Baptist Church. A. G. Carter, pastor. Sunday school 9:40 a. m. Willie Austin, Supt. Morning services at 11 o'clock, subject, "The Power of Christianity." Evening services 7:30, subject, "Jesus Only." All three B. Y. P. U. meet at 8:30. We have a "Story Hour" at 6:30 each Sunday evening for children under nine years of age. You are always welcome to all our services.

(By the Associated Press) **LIVERPOOL, Feb. 1.**—Weekly cotton statistics: Total ordered to mills \$37,000,000; American 32,000; stock 760,000; American 491,000; imports 53,000; American 38,000; exports 8,000; American 5,000.

Farmer Fined For Taking Drink Is Given \$100 Check

A check for \$100 has been mailed to F. H. Lester, Camp Creek, the farmer who was fined \$75 by Mayor Harry Wooding for taking a drink of liquor recently in an alley off Union street. The money was raised by popular subscription, largely through the efforts of James H. Wilson, president of the Virginia-Carolina Warehouse Association, and in sending the money Mr. Wilson writes Mr. Lester the following letter:

February 1, 1924.
Mr. F. H. Lester,
Camp Creek, Virginia.
My dear Mr. Lester:
You will find enclosed my check for \$100.00 (one hundred dollars) certified by the First National Bank of Danville, and payable to your order.

We citizens of Danville feel it very keenly that you should have received such harsh treatment from the Guardians of our City, and we can assure you that had we known of the treatment at the time we would gladly have come to your aid. I am more convinced than ever that no officer should remain in office until he has been shown to be a lawbreaker. I am also opposed to the fee system, as it breeds corruption in office and aids political ringsters, as I see it, and citizens are the "water voters" for the politicians, and their vessels. It is time for us to call a halt and tell them where they can get off, as the Constitution gives us the power and right to govern our state and land. It is heart-rending to see what unreasonable laws our representatives, or rather mis-representatives are placing upon the statute books. They are placing more laws on the statute books, all the time, so as to require one-fourth of our people to study law so as to make it more and more so that no ordinary citizen can possibly take up the statute books without being a law-breaker. In my opinion 304 of the laws should be wiped off the statute books, and before elevating any more politicians we citizens and tax-payers should have a committee look into the pedigree of every applicant for office, holder and see if he would pass the acid test, and is fit to pass and make laws so an intelligent race could live under them.

I am afraid good citizens are judged by the amount of wealth they have and not by the lives they live as it was in ancient days. In my opinion the present day politician is judged by his ability to be sharp in all the tricky dealings and the amount of brass he possesses in his make-up. That material is used instead of brains and conviction. I hope in your mountain home your people have not advanced as ours have along that line, but are living close to nature and in the fear of God. Don't get the impression that all of our people are of that stripe, for they are not. It is only a few back-shops, the politicians, which within them makes them so greedy that they take upon themselves the guardianship of our fair land and thereby our reputation is soiled.

Come to Danville again and I will try to show you the other side and I beg of you not to judge us too harshly.

The auction sales are here to stay, regardless of the two by four politicians who are trying to ride into Congress on the back of the "Co-ops." I know their game. In my mind, anyway, the whole question of the fairness of "Co-ops" is dissolved into two things: First, whether a farmer loves his wife and children more who sells his tobacco at auction, or one who turns it over to the Hebrew from New York or "Oliver."

Yours for a square deal,
JAS. H. WILSON.

SCIENTISTS ENDEAVOR TO TELL WORLD WHAT EVERY WOMAN KNOWS

DRESDEN, Feb. 2.—Face powder has been dealt a hard blow by complexion experts in Germany.

Science, desiring to aid feminine beauty, has perfected a system of determining color changes in dress goods. It has been announced, whereby every woman will appear at her best by following the directions of the color doctors, who say there is no complexion that is unmatchable. For years they have been at work on tone combinations for costume designers to create characteristic effects and to give the wearer individuality unobtainable by the use of face powders or other cosmetic preparations which for so long have occupied first place in every society woman's boudoir.

The color doctors and scientific blenders of hues will set the pace for the dressmakers and women's tailors. Every woman becomes absolute mistress of her appearance at all times by means of the harmonious combinations, or groups of colors, arranged by order of the experts who have visions of revolution in the dry goods business everywhere there are women who want to look smart. One or two visits to the color experts are necessary, on which occasions the customer sits to have her complexion "measured" and recorded. After the settings of dressmakers is given a prescription detailing the various systematic arrangements of colors in silks and other goods to match her complexion on every occasion. These prescriptions, which serve as guides for the dressmaker, may be used for years, so long as there is no material change in the hue of which every woman nurses so carefully. But when the complexion does change, the color doctors must be given another chance to "measure" and write out another prescription. Perfumes, also by prescription, to match every hue and complexion, are given in another possibility of the near future, according to the scientists.

HEAVY FINES AND SENTENCES IMPOSED

By GEORGE H. MANNING
WASHINGTON, D. C., Feb. 1.—Fines totaling \$14,939 and prison sentences aggregating eight years, six months and ten days were the result of courts held during the last month in the Eastern District of North Carolina, with Judge Connor presiding. Director A. B. Coltrane advised Federal Probation Commissioner R. A. Hynes that a total of 169 convictions were secured. In the Western district, with Judge Webb presiding, fines amounted to \$3,150 and prison sentences 49 years and 10 months, with 161 convictions and no acquittals. 2 prisoners were taken from Salisbury and Salisbury.

Underworld Nights

Not only is there honor among thieves, but there is a loyalty among the members of the underworld that is not to be excelled.

While a gangster himself may neglect his mother, wife and family, the mob is always ready to help them when in need.

Funds for such relief are raised usually from "slap-downs" and "journalism."

These affairs are directed by the leaders of the mob. They decide to stage a dance at one of the large East Side dance halls.

Then they go around to their friends, small business men, shop keepers, who seek to curry favor, or try to hold it through fear and make them put ads in the Journal—the dance order program.

Several thousand dollars are quickly realized in this way. This is augmented by a few shake-downs, and the sale of admission tickets.

The amount of the shake-down depends upon the victim. Usually it is all he can bear.

The price of the admission varies. Usually it is a dollar flat.

But it is beneath the dignity of the big-timers to attend these affairs. Yet

GOOD GOVERNMENT CLUB IS OPPOSED TO WARD CHANGES

A petition promulgated by the Good Government Club was being circulated yesterday for signatures of those opposed to the re-establishment of the ward lines in this city. The petition memorializes the local delegation in Richmond to the end that no change be made.

It could not be learned last night how many signatures had been obtained. However, it was said that 50 copies of the petition had been made and that these were being circulated in different sections of the city.

As best as could be learned the members of the Good Government Club are very much agitated over the question as to the identity of the persons who approached the local delegation in the General Assembly with the request that a bill re-establishing the ward lines in Danville be introduced.

The form of the petition being circulated follows:
"To the Honorable W. A. Garrett and N. E. Clement, senators, and to the Honorable C. R. Warren, H. D. Shepherd and R. T. Carter, delegates, Richmond."

"Gentlemen: Whereas the present form of government for Danville, providing for a city council to be elected at large, was approved at a special election in 1920 with 1,243 affirmative votes and only 134 negative votes, and the undersigned voters respectfully request that you will not permit the general assembly to override the wishes of the citizens of Danville, as thus expressed."

PRIVATE C. C. PILL ON MAJESTIC BILL

"Private C. C. Pill" appearing at the Majestic this week is one of the best sketches that has ever been seen in Danville. The line of comedy that this large audience has been keeping large audiences convulsed. The show has appeared in Danville before and at that time attracted much attention. It was brought back through the many requests made to Manager Sommer.

The show is the original one presented by the "Wildcat" Division while in France.

Fine for Lumbago

Musterole drives pain away and brings in its place delicious, soothing comfort. Just rub it in gently. It is a clean, white ointment, made with oil of mustard, and is as effective as the old-fashioned mustard plaster.

To Mothers: Musterole is now made in milder form for babies and small children. Ask for Children's Musterole. 35¢ in jars; tubes, hospital size, \$3.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a yellow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound, mixed with olive oil, to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' C. C. Tablets are known by their olive C. C. 15c and 30c.

Danville G. O. P.'s Name Delegates

Delegates to the Fifth District Republican convention in Rocky Mount, Monday, February 4, and to the State convention at Roanoke on Tuesday, the 8th, were elected here last night at the city Republican convention held in the courthouse. J. B. Reynolds was elected chairman of the meeting.

The delegates named follow: Mrs. O. B. Fresser, Dr. S. A. Shadrach, E. C. Owens, G. M. Tucker, J. B. Reynolds and Dr. John C. Nall.

Alternates: C. G. Burton, Frank D. Lumpkin, G. W. Cole, B. H. Wood.

O. B. Powell and F. E. Holton. On motion of J. B. Stovall, a resolution endorsing the administration of President Coolidge and urging Coolidge's nomination as the Republican candidate was passed.

TO PREACH AT STATE LINE

Rev. J. R. Hite, pastor of Keen street Baptist church will preach at State Line church Sunday afternoon at 3 o'clock.

RABBI HERMAN TO SPEAK

Rabbi Herman will speak at Aetz Chayim synagogue Sunday evening at 7:30 o'clock, his subject being "Origin of Prohibition of Slavery."

Perpetual Lamps

MANY of the ancient writers held a strong belief in Perpetual Lamps. In the oldest literature there are frequently found descriptions of lamps which had been burning in ancient sepulchres, and that were extinguished as soon as the outside air rushed in. When Paul III was Pope, (1534-1549), such a lamp was found in the tomb of Tullia, Cicero's daughter, which had been burning for 1550 years.

AT ABOUT the same time, at the dissolution of the monasteries, a lamp was found that is said to have been burning for 1200 years. Two of these lamps are now in the Leyden (Holland) Museum.

Of course, we do not attempt to claim that The Red "C" Oil or The White "C" Oil, same except in color; will make your lamps burn perpetually. But we do say, and we mean it, that by using this excellent Oil your lamps will burn longer for every gallon of Kerosene you buy. Long-burning, free from all smoke and odor, it is the superior Oil for Lamps, Stoves and Incubators.

The Red "C" Oil **The White "C" Oil**
A bright red color to brighten your lamps **A sparkling, crystal-clear, white Kerosene**
NO SMOKE — NO ODOR

Marshmallow Roast.
The girls of the Freshmore Club, Girl Reserves of Danville High school, abandoned the hike which had been planned and motored to the Country Club yesterday afternoon where they enjoyed a marshmallow roast. The members of the club were: Miss Annie James, advisor; Miss Bessie Ogg, Virginia McKinney, Isabel Swann, Mildred Lewis, Dorothy Hester, Bridgewater Bennett, Laela Coleman and Sallie Daniel.

A Family Reunion.
Mr. and Mrs. P. H. Terry held a family reunion at their home in North Danville, celebrating the return to Danville of their son, C. A. Terry, recently returned after an absence of twelve years. Mr. Terry has been living in the West for many years and, during the war, served overseas with the United States forces. Following his return, Mr. and Mrs. Terry got in touch with their children and arranged for a family dinner, followed by several pleasant hours of social intercourse during which old memories of their early life were revived and talked over. An old-fashioned Virginia dinner was served to the seventeen persons present. Those enjoying the family reunion were Mr. and Mrs. P. H. Terry, Mr. and Mrs. J. T. Terry, of Ringgold; Mrs. Mamie Terry, of Keeling; Mr. and Mrs. W. Adams, of Ringgold; Mr. and Mrs. L. H. Terry, of Ingram; Mrs. C. M. McLaughlin, of Danville; Mr. and Mrs. W. A. Terry, of Danville; C. A. Terry, of Carpendale, Ill.; F. D. Terry, Ringgold, Mr. and Mrs. R. V. Terry, of Newport.

Birth Announcement.
Mr. and Mrs. Aubrey L. Shelton announce the birth of a son, Aubrey Linwood, Jr., on Thursday, January 31st.

Shakespeare Club.

The Shakespeare Study Club met yesterday afternoon at the home of Miss Myrtle Lee, Sutherland avenue. Mrs. Richard Carter read an interesting review of life in the Arctic as described by Vilhjorim Stefansson, beginning with a brief biography of Stefansson's life from childhood, which was spent in Dakota, through University days at Harvard, and years spent in Canada before becoming an explorer, giving his own definition of himself, "An adventurer plus a scientist urged by a thirst for knowledge." The description of his third trip into the Arctic as described in "The Friendly Arctic," covers a period of five years. The expedition was financed by the Canadian government without assistance although \$50,000, instead of being barren and uninhabitable as once supposed, Stefansson described the Arctic region as teeming with every form of life, such as mosquitoes, birds, bears, wolves, hares and weasels. Hundreds of species of plant life, including the poppy, bluebell and cress.

The natives, their characteristics, customs, superstitions and mode of living made the account of these laughing, imaginative, quaint and charming people, very interesting. While recuperating from an attack of typhoid fever the author had excellent opportunity to study the life of the people. The Eskimo's contact with the white man has led him to adopt many of the white man's unknown to him along with the building of wooden dwellings has become popular. The houses however are not so warm as the snow-houses. From a scientific standpoint, the expedition was a success but Stefansson considers of far greater importance the attitude of the world toward the far north since its real character has been made known. He says, "It is chiefly our unwillingness to change our minds which prevents the North from changing into a country to be used and lived in just like the rest of the world."

A short business meeting was held following the program, and the following program committee was announced: Miss Lucy Lee Fitzgerald, Mesdames S. C. Cunningham, Edwin Meade, A. D. Starling. The hostess served a delicious salad course.

Birthday Party.
Thursday evening was an enjoyable event with little Miss Elizabeth Thomas, of Bath street, who celebrated her sixth anniversary, after many games of amusement, including "pinning the tail on the donkey," an ice course was served, this being the most enjoyable part of the program. Those in attendance were: Ruth Tanner, Lewis Morgan, Ruby Forbes, Mary Hamlett, Leroy Shelton, John Forbes, Jr., Luther Forbes and several grown ups. The presents were numerous and useful.

Mrs. Slaughter Honored

By Bridge Party

A bridge party was given by Mrs. B. V. Booth yesterday afternoon at her home on West Main street, celebrating Mrs. S. J. Slaughter, a recent bride, and Miss Lydia Booth Sarvey, of Richmond, who is the bridegroom's guest. The party was played at four tables in the living rooms which were decorated with pink roses, white narcissus and pink shaded lamps. After the game a salad course was served followed by an ice course in the shape of flowers, fruits with pink and white mints and almonds in pink heart shaped baskets.

The high score prize, two decks of cards, was won by Mrs. N. C. Jones.

Mrs. Slaughter, the honor guest, was presented with a set of beautiful Madeira tea-napkins and Miss Sarvey also received a set of Madeira tea-napkins. The guests were: Mrs. S. J. Slaughter, Mrs. Lydia Sarvey, Mesdames J. C. Hannah, C. E. Harper, F. H. Wheatley, Joseph Dunlinton, Ashby Lawrence Patrick, J. C. Watson, Charles A. Raine, Jr., J. I. King, E. G. Bagley, Lee Swain, W. M. Kemper, J. C. Roberts, J. M. Thomas, Mary Orgain, A. E. Gray.

After the game, Mrs. C. Hannah assisted in serving a salad course.

Miss Gibson Gives Book Party
Miss Martha Gibson entertained very delightfully at her home on Virginia avenue yesterday afternoon with four tables of book.

Valentine colors of red and white were attractively used in taily cards and red and white ices which were

afternoon.

HYPNOTISM—OR WEDDING?

RUTH RENICK, CALIFORNIA FILM AND STAGE ACTRESS, AND (INSET) WELLINGTON N. BELFORD, FIGURES IN "HYPNOTIC WEDDING."

SAN FRANCISCO, Feb. 2.—Men had never interested Ruth Renick, film and stage actress, until she met Wellington N. Belford, whom she believed to be a U. S. army major.

He was a brilliant conversationalist, was clever with magic tricks and claimed to possess hypnotic powers.

The romance was short and snappy. Marriage followed quickly. In fact, it all happened so mysteriously that relatives of Miss Renick investigated.

As a result, Belford was arrested served with cupid favors and heart shaped almond baskets. Miss Marian Fitzgerald won top-score prize, a pretty doreen, and Miss Martha Wilford won the booby prize, a valentine.

Those playing were: Misses Martha Gibson, Liza Schoolfield, Edith Hester, Mary Sager, Elvora Dodson, Mabel Bennett, Marguerite Yeatts, Gretchen Oakes, Evelyn Swartz, Virginia Martin, Alice Bennett, Nancy Tyree, Frances Adams, Marian Fitzgerald, Martha Wilford, Evelyn Mitchell.

Personals.
—Miss Lorene Vobliet, of Gretna, is spending the week-end with Miss Hylda Hall and Miss Lucy Tucker.

—Mr. and Mrs. George J. Allen have returned from Mt. Tabor, N. C., where they attended the funeral of Mrs. Allen's mother, Mrs. W. J. Hughes.

—Mr. and Mrs. E. L. Adams have returned from a week's visit to Washington and Baltimore. Mr. Adams attending a business meeting in the latter city while away.

—James E. Covington and Robert Johnson motored to Durham to spend the week-end with relatives.

—Miss Nellie Hall and her little grandson, Billie Hurd, are in Paris, Ill., on a visit to her daughter, Mrs. W. R. Hinds, who was before married Miss Lucile Hall of this city.

—Mrs. E. Ferrell is quite sick at the home of her daughter, Mrs. T. O. Draper, Broad street.

—Mrs. Frank Ferrell is quite sick at her home on Grove street.

—Mrs. E. J. Revell will leave for her home in Baltimore tonight, after spending the past ten days with Miss Mabel Kennedy, at Randolph-Macon institute.

—Miss Spotswood Roberts left today after a visit to Miss Kathryn Hines, Stonehill apartments. Miss Hines accompanied Miss Roberts and will spend some time in Chase City.

—Mr. and Mrs. W. B. Haynes and little daughter, Jessie Allen, of Reidsville, are spending the week-end with relatives in the city.

—Miss Lucy Lee Fitzgerald and Miss Martha Fitzgerald have been spending the past week with Mr. and Mrs. Armstrong Shurtz at Greenwood. They will spend the coming week with Dr. and Mrs. J. C. Filippin at University of Virginia.

—Rev. Joseph Dunlinton, pastor of First Presbyterian Church, will return Wednesday after a fortnight's absence and will conduct the Wednesday evening prayer services.

RINGGOLD HONOR ROLL

Grade I.—George Barker, Irvin Doolin, Billy Mays, Harry Smith, Henry Wilkins, Asa Burnett, Benjamin Wilkins, Irene Smith, Lucille Terry, Cornelia Wilson and Annie Wilkins.

Grade II.—James Lindsey, Herbert Ferrell, Hester Burnett, Harvey Shoad, Noel Wilson, Elizabeth Walker and Nelson Griffin.

Grade III.—Eunice Moshenck, Grade VI.—Louise Henderson, Minnie Morris, Louise Neal, Fanny Wiles, Reginald Walker and Harold Terry.

Grade VII.—Leonard Ferguson, Marion Moshenck, Kermit Moshenck and John Wiles.

Argue Validity of Divorce of Mrs. De Bouchel Today

(Associated Press Leased Wire)
ATLANTA, Ga., Feb. 2.—With the jury excused until Monday, the validity of the divorce proceedings instituted by Mrs. De Bouchel from Adolph Roquet as it affected the legal merit of her engagement to Asa G. Candler, Sr., will be argued before Judge Samuel Sibbey in the district court here today. The argument will be made in connection with Mrs. De Bouchel's \$500,000 suit Mr. Candler for breach of promise. Attorneys for the Atlanta Millionaire have attacked the New Orleans society leader's divorce decree obtained at Reno, on the ground that she was not legally domiciled in Nevada at the time the decree was granted.

Lee's Action In Ousting Members Upheld by Court

(Associated Press Leased Wire)
CLEVELAND, Ohio, Feb. 2.—Action of W. G. Lee, president of the Brotherhood of Railway Trainmen, in ousting 881 members of the organization for their participation in the unauthorized strike of 1920 was upheld today by the Court of Appeals. All of the judges concurred in the decision.

The suit, filed by C. E. Clark and W. H. Stead against President Lee and other officers of the grand lodge in behalf of other suspended members, asked for the appointment of a receiver to take over the property and beneficiary funds of the brotherhood, said to amount to \$5,000,000.

In his opinion the court held that members of organizations whose laws, charters, or constitutions outline an appeal procedure in case of suspension must first seek remedy through their own tribunals before appealing to the courts.

Doheny's Charge Fatal to McAdoo as a Candidate

(Associated Press Leased Wire)
ST. LOUIS, Feb. 2.—The testimony of Edward L. Doheny, that Wm. G. McAdoo, candidate for the Democratic presidential nomination, is employed by him in a legal capacity, asserted Ed. A. Glenn, campaign manager for U. S. Senator James A. Reed, also a candidate for the nomination.

"The Democrats of Missouri, or of any other state, can not afford a man for the presidency who is connected with Doheny and the oil interests now under inquiry by the United States Senate committee," he declared.

Coal Quoted at Slightly Higher Price For City

The city was notified this morning by letters from several mine owners and wholesalers of an increase of 25 cents per ton in the price of run of mine coal used at the city electric and the water pumping plants. This is the first increase in price since last April, the superintendent of works reported today, prices on this type of coal having dropped. Last April coal for the city was sold at four dollars a ton but through succeeding months there has been a drop until last month it was \$2 per ton for run of mine. The new price level brings it therefore to \$2.25. Usually the city enters into a definite contract for the supplying of coal for the public utilities at a fixed price and such a contract was made for supplying the gas house with the type of coal needed there. For the other two utilities, however, the mine owners refused, it is said, to establish a fixed price and the contract might be expected to be a fixed price at a price to be determined by the mine owners. As a matter of fact the city has saved this year because of the constant dropping of the price, the end of the fiscal year being a matter of months would not greatly increase the total coal bill for the city during that period.

Local coal dealers questioned this morning said they had been informed recently that an increase in price had been expected this month. Most of the yards are well-stocked, however, and the price increase, it is understood, will not apply to coal stocks already on hand.

Spanish Swindle Is Heard From In Patrick Co.

The Spanish swindle with a few days ago made its appearance here when W. D. Rowe was asked to send a considerable sum of money to assist some benighted senior of the old Kentucky in jail has also cropped up in Patrick county. S. G. Foley of Patrick county received a letter identical in phrasing and asking him to assist in the securing of \$120,000 for his pains. Mr. Foley was also asked to cable to R. Perez at Madrid saying that he would attend to the matter. Mr. Foley has not been heard from since. He suggested a hardy perennial.

One of Mr. Foley's friends who read the letter set down and drafted a reply which he suggested be sent to Mr. Perez by cable and marked "collect."

His suggested answer runs as follows:

Your letter states that you are in jail. A study of the same indicates that you are where you ought to be, and if you remain there until I spend my money to help get you out you will rot there.

Mrs. J. R. Jordan Dies at Home Near Witt

The death is reported from Witt of Mrs. J. R. Jordan who passed away at the home of her daughter, Mrs. A. F. Flitty last Wednesday morning, after an illness of two weeks. Mrs. Jordan was 64 years of age and was a member of Sandy Creek church for twenty-five years. She is survived by her husband and eight children, R. J. Jordan, G. C. Jordan and J. W. Jordan, all of Ringgold, Mrs. R. S. Burgess, of North Carolina, Mrs. A. F. Flitty of Witt, Mrs. J. R. Russell of Sutherland, Misses Lucy and Eula Jordan of Ringgold. She also is survived by three sisters and two brothers, Mrs. C. I. Gilliland, of Houston, Va., Mrs. A. F. Phillips of Milton, N. C., Mrs. Beris of Atlanta, J. J. and N. B. Mansfield of this city. Twenty-one grand children also survive.

Storm Centered Off N. C. Coast

(Associated Press Leased Wire)
WASHINGTON, Feb. 2.—The disturbance that was central over northern Tennessee yesterday morning is now centered off the North Carolina coast as a storm of considerable intensity. The weather bureau announced today. This storm will move northeastward with a further intensification and it will be attended by shifting gales along the transatlantic steamer route.

Light frost is probable tonight in southern Georgia, northern Florida and in the interior of central Florida.

The REFEREE

BY ALBERT APPLE.

DEATH

We come and go like swarming flies. About 1,300,000 Americans die in a year, according to the government figures just announced. That's a number of funerals almost inconceivable. The procession is endless, a constant parade of hearsees.

Heart disease heads the list of death causes. Next come flu and pneumonia, then, in the order named, tuberculosis, nephritis and cancer. Take care of your lungs and heart, and you have good chances of living to a ripe old age.

FATAL

Most of us die peacefully. Out of 1,300,000 deaths in America in a year, the government estimates that fewer than 60,000 are killed by accidents. Thirteen thousand a year commit suicide.

Murders number at least 9000 in a year, some police experts placing the figure 3,000 higher.

Accidental falls kill nearly as many as autos. Kismet.

GONE

Alton Emerson Stevens died recently. Ever hear of him? He was the inventor of more than 700 useful devices, including the automatic telephone. If he had been a prizefighter or a movie actor, he'd have had considerable fame.

Stevens, however, will be remembered among the intellectuals and industrialists—probably the only ones whose opinion he really cared about. Quickly forgotten in the huge mob of humanity, yes. But his work will live on. Fame, after all, is the most futile pursuit.

ATHLETIC

At Princeton University, nine-tenths of the students are taking part in some form of competitive athletics. An unusually big figure. While the thing can be overdone, it's decidedly true that brain functions better when the physical body is healthy. There is such a decided connection between the two, that one is forced to wonder whether intellect, after all, may not be a "material" or physical phenomenon.

STANDSTILL

Railroad building "made" our country long ago. In a sense, civilization follows the railroads. In former days, civilization crept inland from the coasts, following the rivers. It's obviously had news, that only 427 miles of new railroad lines were laid in 1923, while 384 miles were abandoned. For eight years, railroad building has been virtually at a standstill. The situation has been counteracted to considerable extent by the increasing use of motor trucks.

ANCIENT

About 6500 years ago, a dynasty of mighty kings ruled in Mesopotamia. Scientists, digging in ruins under the sands, find traces of the former mighty, including the oldest dated document ever discovered anywhere on earth. This document, some pieces of clay pottery, bricks and a few crude art objects fashioned from copper—these are all that remain of those ancient kings and their millions of toiling subjects.

The time will come when the World War will be entirely forgotten or, at best, only a myth.

BOTH YANKS AND SENATORS AFTER EDDIE COLLINS

NEW YORK, Feb. 1.—Both the New York Yanks and Washington Senators are negotiating with the Chicago White Sox for Eddie Collins, star second baseman, it was learned today.

At Yankee headquarters it was officially announced that the management would include any one of the world's champions in a trade except Babe Ruth, Joe Dugan, Aaron Ward and Sam Jones. If Collins came here he would play second and Ward would replace Everett Scott at shortstop.

Owner Comiskey of the Sox was understood to have refused to trade Collins here unless Ward was given to him in addition to other players. A year ago the Yanks offered Ward, Jones and Bob Meusel for Collins and Bob Falk.

What material besides second baseman Stanley Harris the Sox demanded from Washington for Collins was not made known. Washington was understood to want Collins to manage the team.

DR. LATANE RESIGNS.

(By the Associated Press)
BALTIMORE, Feb. 1.—Dr. John Latane, professor of American history and dean of the college faculty at Johns Hopkins University, has sub-

mitted to the board of trustees his resignation from the deanship.

Action on resignation is expected Tuesday.

Dr. Latane said his main reason for resigning the deanship was because he desired more time to devote to writing in his chosen field, the history of American foreign policy and present international relations of the United States.

JAPANESE SEEK MANILA TRADE

MANILA, Feb. 1.—A branch of Japanese "Sho-Ho-Sha" or Bureau of Commercial Information is to be established in Manila soon to bring about closer business relations. It is said the pressing need of construction materials, especially timber, has hastened the establishment of the Manila branch.

The bureau was established in Japan several years ago to bring foreign markets into closer touch with Japanese markets.

FARMERS EAGER TO PROGRESS

DAVIS Calif., Feb. 1.—The State College of Agriculture at Davis, with 34 courses available for farmers, has enrolled more than 60,000 students in its correspondence courses in the last ten years.

The correspondence courses are declared to have had a marked effect in improving methods of farming in California. Farmers who could not attend the classes have obtained much the same instruction by mail.

Overnight Features

BY THE ASSOCIATED PRESS

Woodrow Wilson's condition was reported unchanged at 4 o'clock this morning. Mrs. Wilson had retired for brief rest and Rear Admiral Grayson remained in the sick room.

President and Mrs. Coolidge are among the first to send messages to Mrs. Wilson. Chief Justice Taft calls alone and leaves his card at the Wilson home.

Prime Minister MacDonald expresses sorrow at Woodrow Wilson's illness and asserts that this is no time for the expression of partisan feelings.

William G. McAdoo from Los Angeles telegraphs that Senator Walsh and asks that he be allowed to testify

before the committee investigating naval oil leases.

American Ambassador Kellogg and British Minister pledge Anglo-American friendship at Pilgrim's dinner in London in sympathy with Mr. Kellogg.

Josephus Daniels denies statements by Edward L. Doheny to the secretary of the navy he favored the Standard Oil Company in connection with naval oil lands.

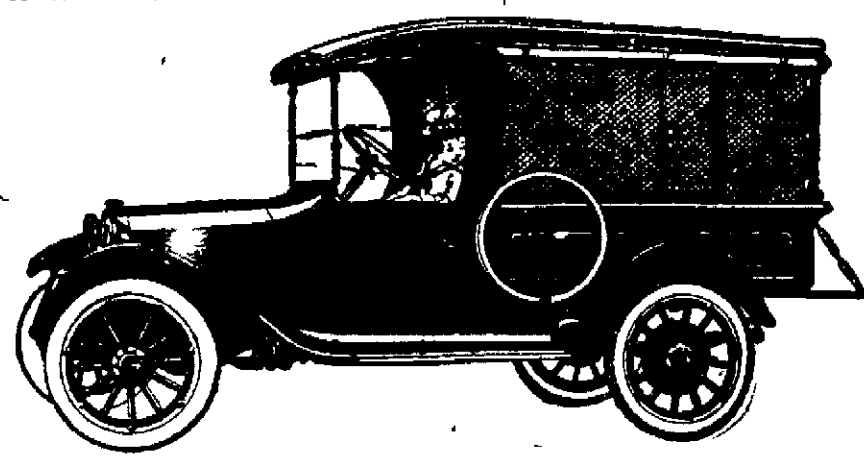

Mexican Senate ratifies text of United States-Mexico General Claim Convention.

12 Months

Dodge Brothers Truck Delivered to the Register Pub. Co., Feb. 2nd., 1923

Over
54 Miles
Daily for
365
Days

Register & Bee Truck

Has been in continuous service every day of the past year, including Sundays, and all Holidays. Beginning service at 3:30 A. M., and continuing until 6 p. m. This truck is each day driven by three and sometimes four different drivers. Every day rain or shine and in all kinds of weather, many trips with a load of over three thousand pounds, over the rough and rugged roads of Danville's suburbs, meeting the early morning trains with the Register mail, and covering Schoolfield, and outlying sections of the city for the Bee, three hundred and sixty five days of continuous use under every possible condition the truck has never failed and is on the job today without any need of repairs or overhauling.

Truck Has Never Been Overhauled.

and the total cost of repairs including incidentals, amounts to the sum of \$44.85.

The above is only one of a hundred like illustrations that could be used in Danville. Every man who owns a Dodge Bros. Truck can probably give you just as good a record. There is nothing unusual about this. It only goes to show that wherever Dodge Bros. trucks are used, they represent the maximum value in service given and in cost of operation.

A GOOD RESOLUTION

TODAY—Turn a new leaf. Start it right. The one best resolution that anyone can make, is:

Save systematically in The Home Building and Savings Association a definite amount of your Income!

That will mean that you are now prepared for some unforeseen emergency, that you are accumulating an "Old Age Fund" or an "Educational Fund" or perhaps a "Trousseau Fund." The best of all, however, is a "Home Fund," that will mean happiness and contentment for the entire family; it means a beautiful garden, a haven of rest, a centering place of peace.

Begin with the children and teach them the budget idea. for "As the twig is bent, the tree's inclined."

Then when July first and January first come round, each year, you will come face to face with Dividend Additions to your savings which will produce further income in dividends. This association pays **SIX PER CENT.**, compounded semi-annually with **SAFETY**, as all our funds are loaned to our members on first mortgage on improved real estate.

But the money saved is not the only thing, not even the principal thing; the main thing is that you will have established the valuable habit of living within your income.

Home Building and Savings Association, Inc.

414-515 Mountain Trust Bldg., Roanoke, Virginia.

514 Masonic Temple, Danville, Va.

H. L. Langel and J. M. Irwin, District Managers.

Office Open Monday and Thursday Nights.

GAS RISES WITH INCREASING USE OF FUEL

By ISRAEL KLEIN.
NEA Service Writer.

The gradually rising cost of gasoline holds out little hope for the motorist. It is the inevitable reaction to the reductions in prices that stirred the nation late last summer. It was expected that the revolt for lower fuel costs was too unusual to last long.

Prices were expected to rise again, although not to the peak of 1923. The cause for this return to former prices is seen in reports of consumption of gasoline not only in the United States, but throughout the world. Besides producing for this country's automobiles, the oil fields of the United States have been sending out more and more of their product to other countries.

Heretofore production of gasoline has been keeping ahead of consumption here and abroad. An oversup-

ply of one billion gallons of fuel was reported last year. But this oversupply is seen to dwindle into practically none at all, with the growing demand for fuel from more and more new motorists, and the increasing exportation of American gasoline, with no importation at all.

To offset this threatening increase of consumption over production, in gasoline, several efforts are being made toward economizing in the use of the fuel. The U. S. Bureau of Mines leads in this attempt.

According to experts, from 3 to 4 per cent of the gasoline accumulated during the winter for summer supply is lost through evaporation. To prevent the loss of several hundred million gallons, the Bureau of Mines has been experimenting on various methods. One is the use of cooling systems in vapor tight tanks, to check dissipation of the gas.

In the process of evaporation, the first fractions to escape are the most

volatile, leaving an inferior fuel in the storage tanks.

A perfect fuel mixture consists of about .07 of a pound of gasoline to a pound of dry air. Yet most motorists use nearly twice as much fuel as necessary, say fuel engineers. This is one of the greatest factors in the present wastage of gasoline, they add.

Substitutes for gasoline are so many and so frequent that there need be no fear of any marked rise in fuel prices. If gasoline ever rises to inaccessible heights, even alcohol might be substituted at a cheaper rate.

The latest substitute is one devised by naval experts. It is about 70 per cent gasoline and 30 per cent, denatured anhydrous alcohol, making a mixture efficient especially for aircraft use. It may result not only in a better, but a cheaper, fuel than the present high-test gasoline used for air travel.

FOREIGN EXCHANGE MAKES A BIG JUMP

NEW YORK, Feb. 1.—A sensational jump of five cents in sterling exchange, after a rise of four cents yesterday, occurred in today's foreign exchange market on the announcement that Premier MacDonald, of Great Britain, had decided to recognize the Soviet government in Russia. Demand bills were quoted as high as \$4.35 1/8.

Local foreign exchange dealers reported that most of the buying orders had originated in London with a large percentage also coming from Berlin. Execution of orders, the original source of which was not revealed, was largely responsible for the brisk rally.

POINCARÉ WINS TEST VOTE

PARIS, Feb. 1.—The Poincaré government obtained a majority of 186 in a test vote in the chamber of deputies today on its program for new taxes and economies. The question arose over an amendment proposed by former Minister of Finance Klotz that all the war contracts since 1914 be revised.

LYNCHBURG, Va., Feb. 1.—Rev. Joseph H. Lynch, pastor of the Methodist Protestant church here, was taken to task by visitors after a revival service at that church last night, when he had preached a sermon in which he proclaimed the doctrine of "a seething hell." Some members of the audience Mr. Lynch announced today, disputed the existence of a hell and offered to debate the question publicly.

WORLD'S COTTON SUPPLY.

(By The Associated Press.)

WASHINGTON, Feb. 1.—The world supply of cotton November 30, last, was estimated today by the department of commerce at 18,185,000 bales. The department's estimates of world cotton consumption during the four months ending November 30, was 6,310,000 bales.

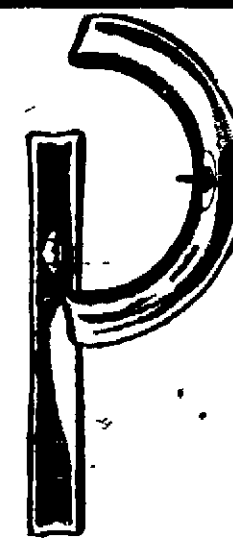

HOSTAGES TO BE FREED

(By The Associated Press.)

BURCHAREST, Feb. 1.—Strange as it may seem, Hungary is still holding certain Rumanian subjects' hostages of war. But they soon will be released, for the foreign minister has recently concluded an arrangement with Hungary by which the Rumanians are to be sent home at once.

The Characteristic Difference That Makes Michelin Ring-Shaped Tubes So Superior

Ordinary inner tubes (illustrated at the left) are simply pieces of straight tubing that must be forced by inflation to conform as nearly as possible to the ring-shape of the tire. The constant strain that results ages such tubes quickly.

Michelin Tubes, on the other hand, are built ring-shaped, and hence fit the inside of the tire perfectly without stretching or wrinkling. Absence of strain keeps them young.

The Round Peg Fits the Round Hole. Because they give unqualified service, yet are moderately priced, Michelin Ring-Shaped Tubes are the best tubes for you to recommend.

A Story of Success

How Studebaker Cars became leaders

145,000 people last year paid \$200,000,000 for them

THE most talked-about cars among fine cars are the Studebaker Sixes—at \$975 and up. Sales have almost trebled in the past three years. The demand for these cars, growing by leaps and bounds, has been Motordom's chief sensation.

Over \$200,000,000 was last year spent for Studebaker models.

Now we wish to explain, to all who are interested, the reasons for that success.

Studebaker has always led

For 72 years the name Studebaker has stood for quality and class.

Studebaker equipages, in the carriage days, held premier place. The White House owned them in the days of Grant and Harrison.

Now we make motor cars only. But the Studebaker name, in this modern field, simply had to maintain its prestige.

We had the money, we had the incentive—we who, now control. And our one ambition has been to maintain the Studebaker place.

\$90,000,000 assets behind us

Studebaker assets are \$90,000,000. We have \$50,000,000 in modern plants and equipment.

Not old plants re-adapted. We have spent \$32,000,000 in new plants in five years. We have equipped them with 12,500 up-to-date machines.

Over \$8,000,000 was spent on drop forge plants alone. Another \$10,000,000 on body plants, to maintain our prestige in coach building.

We believe that no other plant in the country is so well equipped to

build quality cars as Studebaker.

Engineering—\$500,000 yearly

We created an engineering department which costs \$500,000 yearly.

There are 125 skilled men there who devote their time to studying betterments in cars. They make 500,000 tests yearly.

There is a department of Methods and Standards. They decide and fix every standard in these cars.

We spend \$600,000 yearly to machine all surfaces of crank shafts, just as in Liberty Airplane Motors. That is the reason for that perfect balance, that absence of vibration.

Every Studebaker car is Timken-equipped. The Special-Six and the Big-Six have more Timken bearings than any car selling under \$5,600 in America. The Light-Six more than any competitive car within \$1,000 of its price.

Open cars have real leather upholstery. They cost \$25 more per car than imitation leather.

Our closed cars have Chase Mohair upholstery. This is made from the soft fleece of Angora goats. And a Sedan requires from 15 to 18 yards.

Velour for this upholstery would save us up to \$100 per car.

Note the finish of every detail. Mark the infinite care. They add 25% to labor cost on luxurious closed bodies.

Note the completeness of our larger closed cars. The nickel-plated bumpers, the extra disc wheels and cord tires, the steel trunk, the courtesy light, etc. Think what they would cost you, bought as extras.

Thus we have made the Studebaker the leader of quality cars. We have built a demand exceeding 145,000 cars per year.

Learn the results of these efforts, in fairness to yourself. Don't buy a car at \$1,000 or over without knowing what we offer.

Compare the parts and details. Mark the advantages we offer—scores on scores. Our experience is that 95% of those who do that buy a Studebaker car.

Learn why 145,162 bought Studebakers in 1923

Studebakers hold the top place in the fine car field today.

In 1919, the public paid over \$80,000,000 for 39,356 Studebaker cars.

In 1920, the public paid over \$100,000,000 for 51,474 Studebaker cars, an increase of 31% over 1919.

In 1921, the public paid over \$120,000,000 for 66,643 Studebaker cars, an increase of 29% over 1920.

In 1922, the public paid over \$155,000,000 for 110,269 Studebaker cars, an increase of 66% over 1921.

In 1923, the public paid over \$201,000,000 for 145,162 Studebaker cars, an increase of 32% over 1922.

In 1924, business has opened with Studebaker as never before.

Learn why all these buyers preferred Studebakers.

King Winter's Most Beautiful Creation

(By Pacific & Atlantic)
Here is the most beautiful work of King Winter's art, fashioned by his frozen breath and snowy hands in his outdoor studio at Niagara Falls, N. Y., when the temperature stood at 12 degrees below zero. The above illustration was made from the Cave of the Winds.

Jackies See Panama

(By Pacific & Atlantic)
It was washday aboard this U. S. battleship when she passed into Panama Canal locks, but that didn't detract attention of crew from sights.

Latest in Bathing Suits for Coming Summer

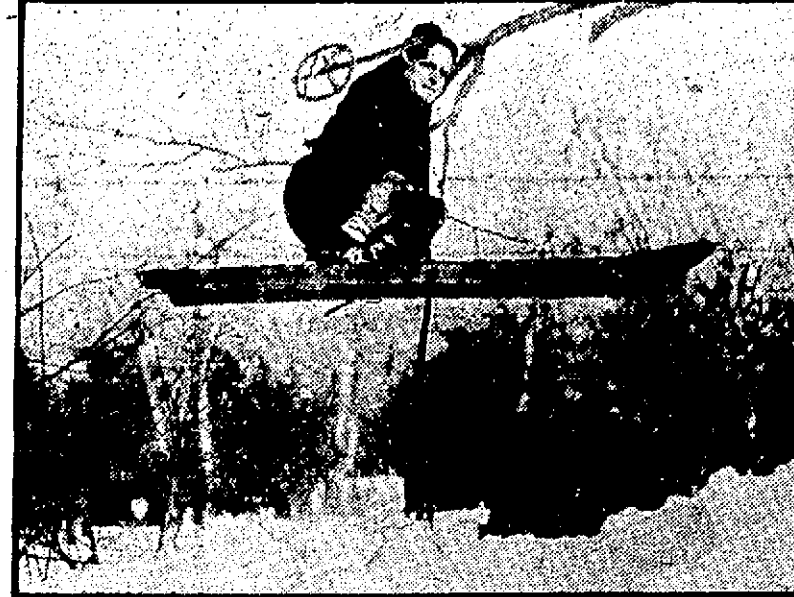

(By Pacific & Atlantic)
The latest thing in bathing suits for 1924 were on display at the Spring Fashion Show at Hotel Commodore, New York. The above illustration gives one an idea of what the women will wear on the beaches this summer.

\$150,000 Drug Seizure on Steamship

(By Pacific & Atlantic)
In these paper packages Customs Inspectors Antz, Sieff, Sweeney and Barrett (left to right) of New York found morphine with a wholesale valuation of \$150,000 hidden behind false panels in steamship Colombo from Naples.

New Wrinkle in Skiing

(By Pacific & Atlantic)
Skiing itself is an art, the mastery of which is difficult enough, as any one who has tried it will testify. This expert up Montreal way shows how one of the most difficult stunts with skis is accomplished.

Brown Derby Figures in Divorce

(By Pacific & Atlantic)
A brown derby and a coat found in New York apartment of Zoe Barnett (above), actress, with other evidence of week-end visits there by William Pinkham, actor, won divorce decree for Mrs. Frances Nordstrom Pinkham. Husband lost counterclaim for annulment.

Fortune for Gems

(Portrait by Pond from P.T.)
For a price set at nearly \$400,000, Mrs. Peter Gerry (above), society woman, has purchased from Prince Youssoupoff a pearl necklace, once among Russian royal gems.

Envoy to Russia

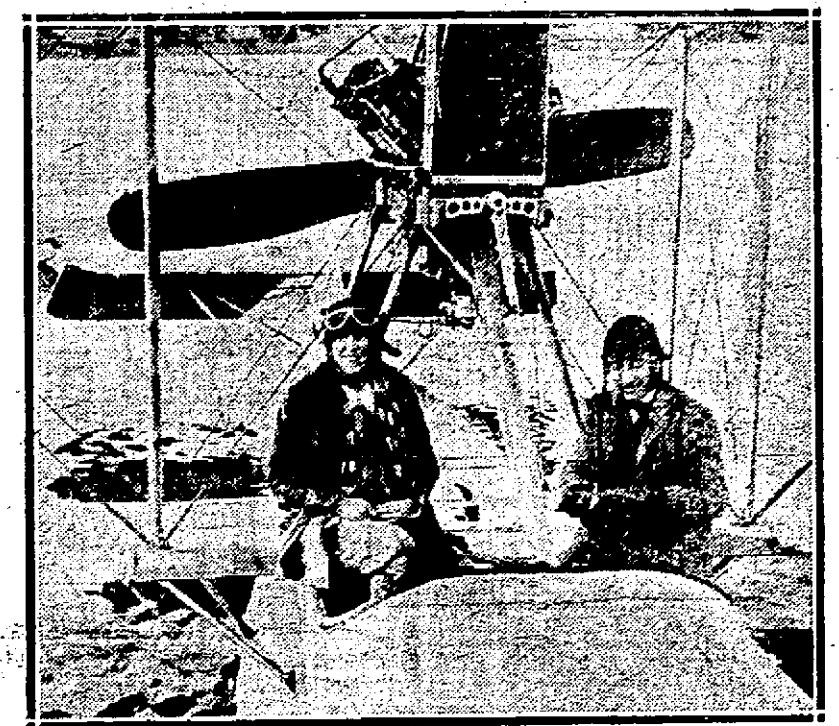

(By Pacific & Atlantic)
The recognition of Soviet Russia became a certainty when it was made known that James O'Grady (above) had accepted the post of first British Ambassador to Soviet Russia.

Parallel Lives

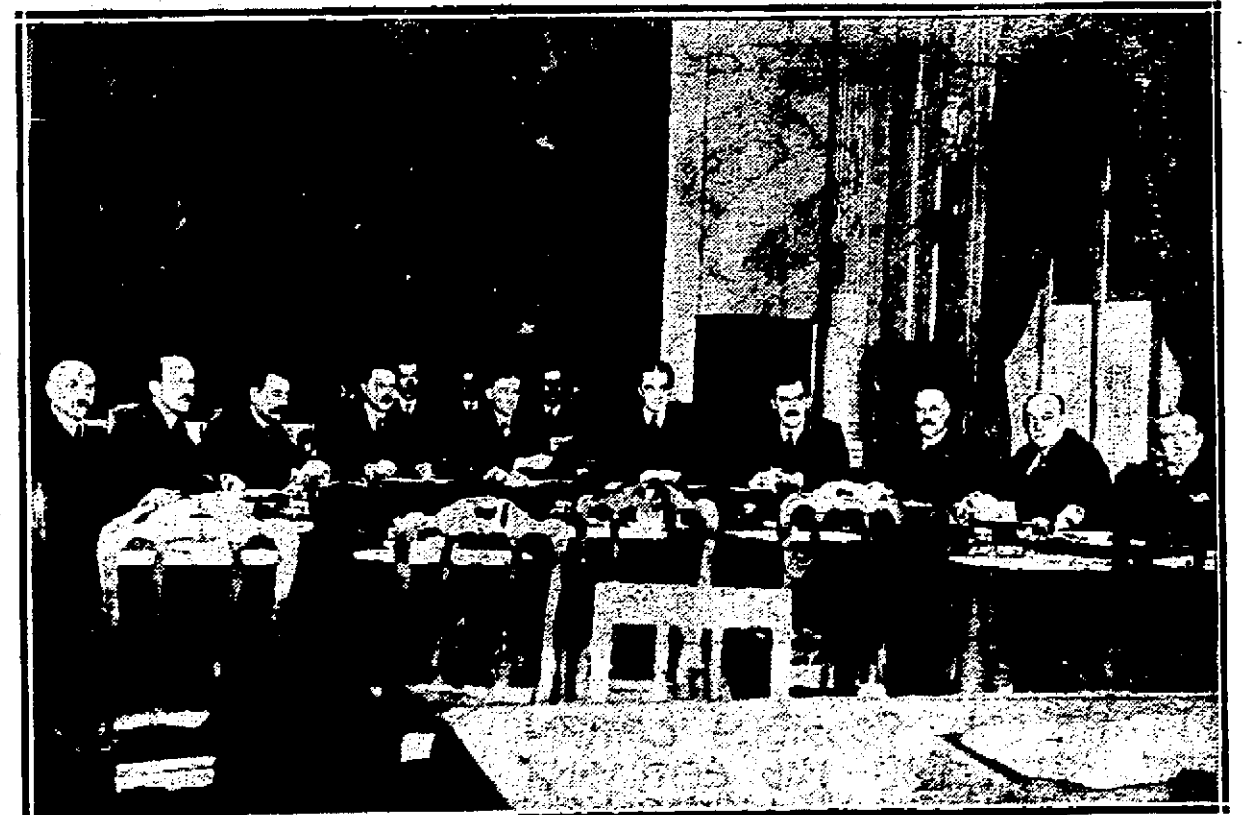

(By Pacific & Atlantic)
Married on same day, Mrs. N. Wells and Mrs. H. Tewell, sisters, gave birth to babies on same day. Mrs. Wells got boy (left) and sister a girl, shown above with nurse.

Woman Entered in French Air Race

(By Pacific & Atlantic)
Miss Eleanor Vredinburg of Freehold, N. J., is first woman to bring a seaplane into France. The above shows her in plane along the Riviera with Capt. Miceli, her mechanic, with whom she is practicing for coming aero meet.

Planning Europe's Financial Future

(By Pacific & Atlantic)
The above illustration shows financial experts from all parts of the world in their first meeting at reparations headquarters in Paris to thresh out the financial plans of Europe. In center (marked 1) is Brig. Gen. Charles G. Dawes; to right (marked 2) is Owen D. Young.

Repairing Sea Giant

(By Pacific & Atlantic)
Worn by friction of its anchor, the original German made cast iron hawse pipes of Leviathan are being removed at Hoboken, N. J. to be replaced by steel ones. Photo shows one weighing 10 tons being removed.

FAMOUS OLD LONDON BANK PURCHASED BY LARGER INSTITUTION

LONDON, Feb. 1.—Drummond's Bank, the most aristocratic of London's many aristocratic private banks, declared by legend to have lent money to the Pretender in 1745 and repudiated the accounts of half the peers of Great Britain, has been absorbed by the Royal Bank of Scotland, a comparatively new bank in the city's financial circles.

The famous old bank building with its Jacobite appearance and traditions which hides under the splendor on the new Admiralty Arch will remain as the oldest banking house still functioning in London. The partners of the bank, all members of the Drummond family, will remain with the bank which will be a branch of the larger institution.

Drummond's has always been regarded as the "die hard" of English banks and it was only last year they published a statement of their liabilities and assets. The capital of the bank was 2,000,000 and the deposits \$18,376,550. The Bank of Scotland has a capital of 10,000,000 with deposits of \$189,402,590.

Only two of the many famous old private banks of London that were often known to finance a war or come to the aid of the throne in times of financial distress remain in their original status. The oldest Child and

NOTABLE MEN TO ADDRESS

PHILADELPHIA, Feb. 1.—Delegations from all Presbyterian and Reformed churches of the United States, Canada and South America, representing more than 3,000,000 membership are expected to attend the annual meeting of the World Alliance of Presbyterians and Reformed churches to be held at Newport News, Va., February 26, 27 and 28, according to announcement tonight by Dr. Henry B. Master, American secretary of the Alliance.

Dr. Masters said that the results expected from the meeting include a new appreciation of the dangers lurking in Soviet propaganda, a new sense of the duty of American Presbyterians to their destitute and afflicted brethren in Europe, and the binding together of all the constituent bodies of the alliance in a closer loyalty to Christ.

Men notable in religious work of the world will deliver addresses and present reports.

WASHINGTON, Feb. 1.—Miss Margaret Wilson arrived at her father's house from New York at 3:30 p. m. She was brought from the railway station by Joseph Wilson, of Baltimore, the former president's brother

"AL" SMITH CAN BANK ON HIS FAMILY

AL SMITH, NEW YORK GOVERNOR AND DEMOCRATIC PRESIDENTIAL POSSIBILITY, LEFT ABOVE GOVERNOR'S MANSION AT ALBANY, BELOW, ARTHUR AND WALTER SMITH, AL SMITH JR., RIGHT EMILY SMITH (ABOVE), AND MRS. AL SMITH

By ALEXANDER HERMAN

ALBANY, N. Y. Feb. 2.—If the blare of brass bands, the sway of catchy music, and the plaudits of thousands can move political delegates, Alfred E. Smith, governor of New York, has the advantage over all other Democratic presidential possibilities.

For the convention is to be in the back yard of his own East Side. "Al" Smith is its favorite son, if ever there was one. He is favorite with his old constituents of Oliver and Catherine streets, where he was reared, he is favorite with the old aristocrats of Albany society.

But his popularity is strongest with his own family. For "Al" Smith is not only a good husband, father and son but the best sidewalk of all.

Mother's Tail
But it is as son, the governor's mother says, that he comes first. No matter how pressing the business of state, "Al" never fails to run over to Brooklyn to see this little white-haired old lady when he comes to New York.

Smith's history is like a story of fiction come true. It is the chronicle of a fish-boy who twice rose to be governor—and is now in the running for the presidency.

Born down on the East Side "Al" Smith lived the youth of a regular East Side youngster. He went to school, peddled papers when the family exchequer demanded developed his mental agility in conflict with the hard realities of a hard life.

"Al" was 13. This left the boy to support his mother and sister. The best job available was the old Fulton Fish Market. He went to work at 4 o'clock each morning.

He's Ambitious
Evenings, he went to night school. After 18 months he got a better job, a clerkship in the commissioner of jurors' office.

That was in 1895. Since then, "Al" Smith has been in politics continuously. His complete public record follows: 1895-1903—Clerk in office of New York City commissioner of jurors. Assembly. 1903-1915—Member of New York. 1915-1917—Sheriff of New York county. 1917-1919—President of New York city board of aldermen. 1919-1920—Governor of New York. 1923—Governor of New York.

Smith's success may be attributed to his humanness, natural ability for sizing up persons and situations, and a talent for telling stories. But at no time has Smith let his political activity interfere with his home life. No matter where he is

he reports daily by telephone to his boss—Mrs. Catherine A. Smith, who hasn't let the duties of the first lady of the state interfere with her domesticity. She still does her own crocheting and knitting.

Active Family
And their youngsters are growing up healthy, democratic "kids"—just as they would be if they were still living down on Catherine street.

Alfred Jr., who is 23, goes to law school. Arthur, 16, goes to a high school, where he is on the nidget basketball team. Walter attends an elementary school in the neighborhood. Miss Emily, 22, is through with college and helps her mother at home. Catherine, the other daughter, goes to boarding school.

ALLOCATIONS OF HOTELS

NEW YORK, Feb. 1.—Allocations of hotels for the delegates of ten states to the Democratic national convention next June were announced today by George F. Mara, assistant to Cordell Hull, chairman of the National Democratic Committee.

FOUR STILL ARE CAPTURED IN RAID IN HENRY COUNTY

MARTINSVILLE, VA., Feb. 1.—On Wednesday of this week Sheriff H. S. Turner, of Henry county, assisted by Federal Officers H. G. Stultz, A. H. Powell and H. V. Davis made a successful raid in the Sandville section of the county. Four large stills were captured and destroyed and 10,000 gallons of mash poured out. Twenty gallons of liquor was also found and poured out. Stored away near the still was 12 bushels of meal. This was confiscated. Two men at one of the stills made their escape.

PROPOSED RAIL TARIFFS HELD UP

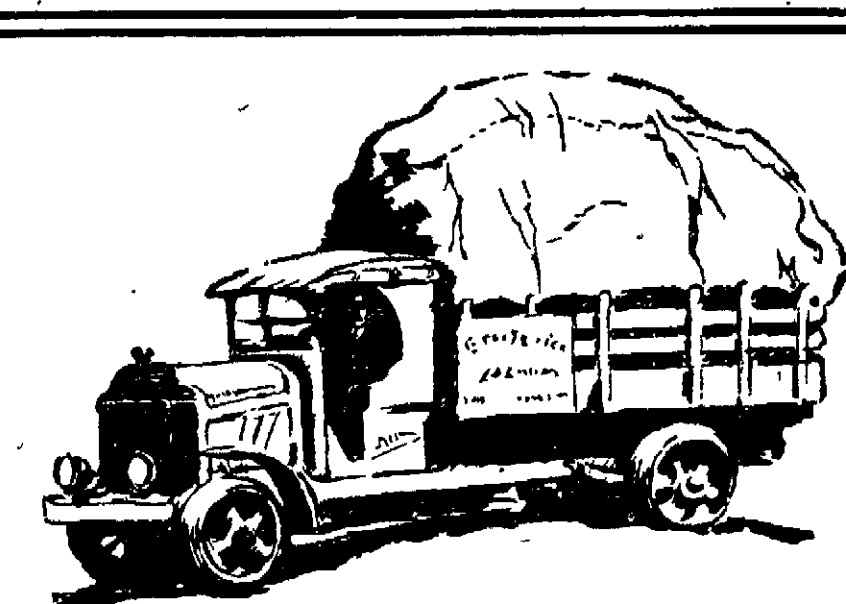

WASHINGTON, Feb. 1.—Proposed new rail traffic on fresh and green vegetables from the Carolina territory to western and northern markets have been held up by the Interstate Commerce Commission until a hearing can be had as to the justification of the new rates. The hearing is set for Raleigh, March 1, before Examiner Cassidy. The rates were to have gone into effect today—Feb. 1. The Atlantic Coast Line, the Seaboard Air Line, and the Norfolk Southern railways are affected.

AMERICA DEFEATS SWEDEN AT HOCKEY

(By The Associated Press.) CHAMONIX, France, Feb. 1.—The United States and Canada on Sunday will struggle for supremacy in the final Olympic hockey contest. In the semi-final matches played today the Americans defeated Sweden 20 to 0, while the Canadians eliminated the Englishmen by a score of 10 to 0. The American goal never once was threatened, and the Americans therefore enter upon the final contest with an absolutely clean slate as far as points lost go. The Canadians also had a perfect state until today, when during the play the English right-winger caught the Canadian goal keeper off guard and sent the puck into the net for a goal, and later on shot a second tally.

AMERICA DEFEATS SWEDEN AT HOCKEY

(By The Associated Press.) CHAMONIX, France, Feb. 1.—The United States and Canada on Sunday will struggle for supremacy in the final Olympic hockey contest. In the semi-final matches played today the Americans defeated Sweden 20 to 0, while the Canadians eliminated the Englishmen by a score of 10 to 0. The American goal never once was threatened, and the Americans therefore enter upon the final contest with an absolutely clean slate as far as points lost go. The Canadians also had a perfect state until today, when during the play the English right-winger caught the Canadian goal keeper off guard and sent the puck into the net for a goal, and later on shot a second tally.

TOLEDO BASEBALL CLUB IS BOUGHT

(By The Associated Press.) TOLEDO, O., Feb. 1.—Control of the Toledo American Association Baseball Club passed from Roger P. Brennan of Toledo, to Joseph D. O'Brien of New York, when the deal transferring interests held by Brennan and the New York Giants was informally completed here late today. O'Brien is among the privileged friends in New York, Chicago and Pittsburgh now hold 534 of the 750 shares of the stock in the club, it was announced. The new officers of the club were: Joseph O'Brien, president, Charles M. Turner, Pascale N. McGraw, brother of John McGraw, manager of the Giants, business manager and secretary and Edward Kirchner, Toledo, treasurer.

TARGET PRACTICE RESULTS IN DEATH OF ONE; TWO HURT

(By The Associated Press.) STILLWATER, OKLA., Feb. 1.—One woman is dead, two other persons were slightly injured and three students of the Oklahoma A. and M. College are in jail tonight as a result of a target shooting match staged in the rear of a fraternity house. Random shots killed Mrs. Mathilda Edges, 73, a widow, and slightly injured Mrs. Claude Davis and her daughter, Pearl, 11.

Tech Freshmen Swamp Chatham

BLACKSBURG, W. Va., Feb. 1.—The Virginia Tech Freshmen defeated Chatham Training School here today 45 to 22. The Tech's started off in a rather loose way and allowed the visitors to hoop two balls before they got under way. The Goblets were soon finding themselves and retired in favor of the second team with the score 15 to 7 after fourteen minutes of play. The second team carried a fast offensive until seven minutes of the second half had been played. The regulars returned for the remainder of the game and swept the visitors off their feet with their fast floor work and accurate goal shooting. "Buddy" Dear, former Maury High captain, was by far the most brilliant light of the Tech team. His dribbling and floor game was superb while his goal shooting netted sixteen points for his team. Dear shot seven goals and two fouls. The other luminaries for Tech were Page, Krebs and "Fish" Wyant. The high lights for the visitors were Huggins and Mattox. The Freshmen are vacant tomorrow and the varsity goes to Roanoke where they meet Virginia tomorrow night.

20 WINS COMMON FEAT FOR OLD TIMES

By NEA Service.
ST. LOUIS, Feb. 2.—Only three clubs in the National League failed to put a pitcher in the "20 victories" circle last season. Two of them were the Boston Braves and the Phillies. Oddly enough, the third was New York, the pennant winner. Scott and McQuillen with 21 wins each came nearest of the Giant hurlers to make the grade.

All told, the Heydler circuit showed seven pitchers who hit the 20-mark and over. Cincinnati was high with three—Luque, Donohue and Rixey. Luque turned in 27 triumphs, Donohue 21 and Rixey 20. Combined, the trio was responsible for 68 of the Reds' successes.

Other gunners in the 20-game class were Alexander of the Cubs with 22 victories; Morrison, Pittsburgh, 25; Haines, St. Louis, 21, and Grimes, Brooklyn, with 22.

Looking over the records of these seven pitchers it is interesting to note that they all appeared in almost the same number of games. For instance, Morrison, Donohue and Rixey toiled in 42; Luque in 41; Grimes, 39, and Alexander and Haines, 38.

Jonah, Giants, and Oeschger, Braves, took the hill top on the most occasions—44, but didn't pitch in as many full games as did various other twirlers in the league.

FINDS OFFICE BOYS SKILFUL IN HOODWINKING THE BOSS

LONDON, Feb. 2.—England is interested in, if not always impressed by, American efficiency, but there is nothing but sympathy and praise for the committee of American efficiency experts which has tackled the tough job of investigating the lives and habits of office boys.

That 12 per cent. of them read cheap novels, four per cent. sleep on their jobs, three per cent. collect stamps, 17 per cent. write their names scores of times daily, and seven per cent. practice typewriting on forbidden machines, is not questioned.

However, the Daily Express thinks the findings of the American experts that 35 per cent. of office boys are sufficiently clever in their actions to hide from their bosses what they are doing, is slightly wrong. The newspaper says this figure should have been put at 99 per cent.

Expert Attention For Your Car

MIAMI BEACH LETS BEAUTIES BE OWN CENSOR

Believes in "Wide-Open" Policy While Staid Atmosphere Prevails at Palm Beach.

By ROBERT T. SMALL

(Copyright, 1924, by The Bee)

MIAMI BEACH, Fla., Feb. 2.—Northern beaches may censor as they will, but Miami Beach believes in a "wide open" ocean. Miami, early in its career as a winter bathing resort, adopted this rule and has seen no reason to change it. In fact there are to be seen daily hundreds of reasons for continuing it.

The Miami philosophy is a good one. Miami believes that the American girl will censor herself. She will always show her good points, no matter what the rules, and she will always continue to hide her bad ones to the best of her ability.

Miami believes in the real "glorification of the American girl." Florenz Ziegfeld, Jr., who adopted that phrase as the keynote of his "Follies" insists that he will produce no more Follies. They are too much worn, too great an expense, and he believes that smaller and lighter musical comedies like "Sally" and "Kid Boots" are just as pleasing to the public and far more pleasant to the manager.

Ziegfeld spends his winters at Palm Beach. Perhaps if he came down here to this land of glorification and exaltation, supreme of the "glorification of the American girl" mind, he would find it a little more "glorifying" than he does.

Palm Beach still insists upon being rather "prissy" about its bathing. There one must wear skirts and stockings. The stockings must be black or gray or white, "the nudes" that are so popular for street wear this winter will not do at the Palm Beach casino.

The stockings must be black or gray or white, "the nudes" that are so popular for street wear this winter will not do at the Palm Beach casino. The stockings must be black or gray or white, "the nudes" that are so popular for street wear this winter will not do at the Palm Beach casino.

Yet, it is difficult to think of Mr. Ziegfeld as being anything but the exponent of the most liberal side of costuming and beauty.

Harry Turner, who wrote the music of "Kid Boots," the latest Ziegfeld production, has come to Miami Beach and feels there is greater inspiration for further symphonic effects in the Miami method. The beach authorities here, as stated, seem agreed that the American girl needs no censoring. She is her own best censor.

If she be fair of face and form she will do nothing to hide either. If her limbs are a gleaming white, why dim them with a dowdy stock? If her waist be slender and her hips rounded and firm why do more than encase them in the closest of clinging jersey? Echo down here seems to answer "wherefore?"

Miami Beach is notably the land of the strand of the one piece suit. Some of the one piece suits are just about as good as the quality of trousers and that is all.

Some of the bathing beauties wear the new all-rubber low sandals. Some don't wear anything below the abbreviated two-piece suit. Some depend on whether the toes are good looking. Here again you realize the wisdom of the Miami code of letting the bathers censor their own costumes. The content there is nothing but beauty in the picture of a good looking girl in a postage stamp bathing costume.

Those women who have passed beyond the aphoristic stage generally are conservative in their dress and of course that is as it should be.

Miami Beach claims that the average age of the bathers here is some 20 years below the average of the United States and that it is perfectly all right for the elderly dowagers of aristocratic Palm Beach to impose their own restrictions upon the younger set. The dowagers say if they wear one piece suits (and heaven forbid that they should) no one else shall. Miami Beach is younger and more virile.

The Miami motto appears to have been patterned after the prescription of that famous nature cure specialist of Chicago who told his patients to "wear just enough in winter to keep warm, and just enough in summer to keep from being burned."

Miami has even gone further than that. It doesn't station any cops at the beach. They have only the police. Let the casualty list in all its history testify. New comers from the North constantly are losing their breath. Some of the men have lost an eye or two. From all of which it may be inferred that the mid-winter bathing season is in full swing. Here, where warm waters of the gulf stream are less than two miles from the shore, the temperature of the sea seldom goes below 70 degrees. More often it ranges around 75 and 78, which is warmer than at most northerly resorts in mid-July.

The picture of the bathing beach at noon is one of the vivid colors. The palm trees reaching down almost to the surf line form a green background for the bathers. Venetian stripes seem to be quite the vogue in the fancier costumes, while in the one piece affairs, light blue appears to predominate. Bathing capes are positively riotous in their reds, yellows, blues and greens. One of the most fetching figures on the beach is that of a girl who wears a tiny little terrapin colored jersey swimming suit. She is a sun worshipper. Her arms and legs are almost the color of copper. Her hair hangs in two plaits, which reach to her knees. Most of the time the two plaits are pulled over her shoulders in front. A gypsy bathing cap completes the effective make-up.

All the newcomers ask what in the world she does with all that hair when she goes into the ocean. The answer is simple. She doesn't.

However, —comma

By JAMES W. DEAN

NEW YORK, Feb. 2.—Few writers could make a dumbdora as interesting as Arnold Bennett's "Elsie in Riceyman Steps." Unlike the Bertha in Fanny Hurst's "Lummox," Elsie has no gypsy tumults beating within her breast. If she were to become articulate, she would have no deep emotional or sentimental expressions to utter.

Both writers possess the consummate skill required to project such a wooden-head in an interesting light. And because Bennett has made this creature and hence equally obtuse husband and living realities, he has turned out one of the finest bits of writing to be found in present-day literature.

Bennett doesn't allow his characters to do much talking. He creates the illusion of their reality in the external details of their lives. Under his hand inanimate things take on animation and wrap themselves about the living characters.

Here is the way in which he describes Elsie's room, and knowing her room, you know Elsie.

"Elsie's bedroom was a servant's bedroom, and always had been. Its furniture comprised one narrow iron bedstead, one small yellow wash stand, one small chest of drawers, a dressing table, a Windsor chair, and nothing else in the way of furniture—unless three hooks behind the door could be called furniture. No carpet. No apparatus of illumination except a single candle in a glass shade. The room was extremely cold, but Elsie had never known of, or even conceived, a warm bedroom in winter. It was bare, but it was bright, and it was clean."

"The room was extremely cold, but Elsie had never known of, or even conceived, a warm bedroom in winter. It was bare, but it was bright, and it was clean."

"The room was extremely cold, but Elsie had never known of, or even conceived, a warm bedroom in winter. It was bare, but it was bright, and it was clean."

"The room was extremely cold, but Elsie had never known of, or even conceived, a warm bedroom in winter. It was bare, but it was bright, and it was clean."

"The room was extremely cold, but Elsie had never known of, or even conceived, a warm bedroom in winter. It was bare, but it was bright, and it was clean."

"The room was extremely cold, but Elsie had never known of, or even conceived, a warm bedroom in winter. It was bare, but it was bright, and it was clean."

MORNING STOCK LETTER

Thomson & McKinnon

NEW YORK, Feb. 2.—A year ago all stockholders in the various oil companies were confronted by a real economic problem—overproduction and declining prices, which finally brought a panic break in stocks. Today the stockholder in most of the companies has nothing to worry about and those in a few companies are naturally concerned at the prospect of litigation. Whatever economic disturbance may follow will be toward strengthening the industry, there can be no mistake about that at all.

Leading banks in their monthly re-

views and commercial agencies in their weekly reviews confirm what the stock market has been indicating—broadening in business. We will probably have another record year in all kinds of construction. The stock market is in a good position and should do better.

MORNING COTTON LETTER

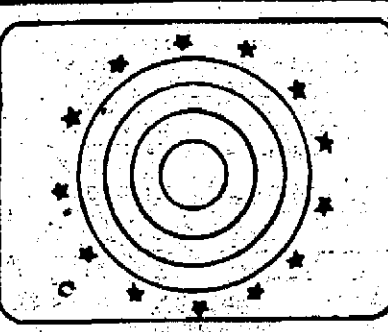

Thomson & McKinnon

NEW YORK, Feb. 2.—Spots Liverpool sales today 6,000 which represents a good business for a half holiday. Our market due to open ten to twenty points higher, market continues to absorb selling very well around 34 cents for May but I would rather sell on further advances as at this level hedge sales from the South are increasing in volume.

SOILED CANDLES

Candles used purely for decorative purposes. If they are light colored, soon become soiled. You can clean them with absorbent cotton applied in alcohol.

DAILY PUZZLE

The drawing shows four circles: one within the other. The circles represent the four silver U. S. coins—dollar, half dollar, quarter and dime. Around them are the thirteen stars which appear on many coins. Distribute the thirteen stars among the circles so that each circle contains an odd number of stars.

Yesterday's answer:

TROTH OSIRIS

Take the first "H" from Thoth and insert it in Osiris; thus: T OTH OSIRIS.

Put the O from Osiris into the blank space of T OTH, and your answer is: T OOTH, SIR, HIS—three words of the English language.

COAL STONEGA COKE

ASH-PILE ARITHMETIC

Every per cent. of ash means a loss of 20 pounds of coal per ton. The consumer pays for these 20 pounds four times before he is through with them—1st in the purchase price; 2nd in transportation charges; 3rd in boiler inefficiency; 4th in removal costs. How many dollars can you dig out of your ash pile?

A contract for Admiralty assures you of a clean, high-quality coal that is remarkably free from non-burnable matter, procurable at a price consistent with quality.

There is no argument for "spot" buying when such coal as Admiralty is available on contract.

GENERAL COAL COMPANY.
